-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 12 August 2002.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1 and 3-24 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1 and 3-24 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
- Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
- 11) ☐ The proposed drawing correction filed on _____ is: a) ☐ approved b) ☐ disapproved by the Examiner.
- If approved, corrected drawings are required in reply to this Office action.
- 12) ☐ The oath or declaration is objected to by the Examiner.

Priority under 35 U.S.C. §§ 119 and 120

- 13) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. _____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.
- 14) ☐ Acknowledgment is made of a claim for domestic priority under 35 U.S.C. § 119(e) (to a provisional application).
- a) ☐ The translation of the foreign language provisional application has been received.
- 15) ☐ Acknowledgment is made of a claim for domestic priority under 35 U.S.C. §§ 120 and/or 121.

Attachment(s)

- 1) ☒ Notice of References Cited (PTO-892)
- 2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
- 3) ☐ Information Disclosure Statement(s) (PTO-1449) Paper No(s) _____.
- 4) ☐ Interview Summary (PTO-413) Paper No(s). _____.
- 5) ☐ Notice of Informal Patent Application (PTO-152)
- 6) ☐ Other: _____.

DETAILED ACTION

Status of Claims

1. In response to the communication received on 8/12/02, the following is a final office action. Claim 2 has been cancelled. Claims 1, 11, 12 and 22 have been amended. Claims 1, and 3-24 are pending and have been examined on the merits. Claims 1, and 3-24 are rejected. The previous rejection has been withdrawn and the following rejection reflects the claims as amended.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, and 3-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Kadaba, et al. (EP 0 787 334 B1).

As per claim 1, Kadaba, et al discloses:

A system for tracking receipt and internal movement resulting in a delivery or other final disposition status of items such as packages within an organization...(Col. 1, lines 5-9):

A portable data terminal...(Col. 11, lines 54-55);

Record information regarding the receipt...(Col. 12, lines 7-16);

Record information regarding the internal movement...(Col. 13, lines 8-16, where the examiner is interpreting the data collection format of the present invention as the bar code information of Kadaba, et al);

A base station capable of communicating with the portable data terminal for uploading electronic files...(Col. 12, lines 31-44, where the base station of the present invention is analogous to the central computer system of Kadaba et al since the portable data entry device of Kadaba et al transfers information to the central computer system, also in Col. 3, lines 36-41, Kadaba et al discloses that information is transferred *between* the information storage device of the portable data entry device and the central computer system located at a parcel delivery firm meaning that any information stored at the central computer system can be uploaded to the

information storage device of the portable data entry device).

Wherein the system is configurable so as to allow a user to use the base station to modify the data collection format according to the user's needs...(Col. 3, lines 25-32, where the data is being displayed via the same format or symbols of the information associated with the parcel which was entered through the data entry, here the data format is being modified by the user when the parcel information is entered with a particular symbol format, this changes the original format used by the previous parcel, also Col. 10, lines 49-57 where Kadaba discloses a "Site Configuration" where the user is allowed to alter the

Art Unit: 3623

configuration of interfaces associated with devices which at a station does include a data entry for providing a data collection format).

As per claims 3, 14, Kadaba, et al discloses:

Further comprising a data processing unit capable of communicating with the portable data terminal...(Col. 3, lines 45-47);

Maintain a database of records...(Col. 3, lines 51-52, Col. 10, line 58-Col. 11, line 3, Col. 11, lines 29-32);

And internal movement...(Col. 4, lines 6-10)

Maintain a database of recipient names...(Col. 4, lines 4-5);

Generate a manifest of selected ones...(Col. 4, lines 16-17, [captured signatures]).

As per claim 4, Kadaba, et al discloses:

Wherein the data processing unit is further programmed to maintain a database of sender names...(Col. 7, line 7);

And carrier names related to said received items...(Col. 5, lines 15-18, Col. 6, line 53-Col. 7, line 5, [driver's PDA information is downloaded]).

As per claim 5, Kadaba, et al discloses:

Wherein the data processing unit is further programmed to provide status information related to said received items through searches...(Col. 13, lines 21-31, Col. 12, lines 25-43).

As per claim 6, Kadaba, et al discloses:

Wherein the portable data terminal is further programmed to associate the receipt of items with the recipients...(Col. 7, lines 2-8).

As per claim 7, Kadaba, et al discloses:

A display device...(Col. 11, line 58);

An inputting device...(Col. 11, line 58-Col. 12, line 3);

A communication device to communicate with the base station...(Col. 12, line 5).

As per claims 8, 17, Kadaba, et al discloses:

Wherein the received items contain barcode...(Col. 13, lines 12-16, Col. 12, line 58).

As per claims 9, 18, Kadaba, et al discloses:

Wherein the information displayed on the display device includes a popup list...(Col. 8, lines 5-18).

As per claims 10, 19, Kadaba, et al discloses:

Wherein the display device displays a plurality of entry fields...(Col. 8, lines 5-18).

As per claim 11, Kadaba, et al discloses:

Further comprising a communication medium...(Col. 12, lines 31-44).

As per claim 12, Kadaba, et al discloses:

Further comprising a connection cradle...(Col. 9, lines 55-58).

As per claim 13, Kadaba, et al discloses:

A portable data terminal...(Col. 1, line 6):

A display device...(Col. 11, line 58);

An inputting device...(Col. 11, line 58-Col. 12, line 3);

Record information regarding the receipt...(Col. 12, lines 7-16);

Is inputted with a data collection format which can be created and/or modified...(Col. 12, lines 46-49, Col. 3, lines 25-32, where the data is being displayed via the same format or symbols of the information associated with the parcel which was entered or input through the data entry, here the data format can be created/modified by the user when the parcel information is entered or input with a particular symbol format, this changes the original format used by the previous parcel, also Col. 10, lines 49-57 where Kadaba discloses a "Site Configuration" where the user is allowed to alter the configuration of interfaces associated with devices which at a station does include a data entry for providing a data collection format).

As per claims15, Kadaba, et al discloses:

Wherein the external device is configurable so as to allow the user to create or modify the data collection format...(Col. 3, lines 25-32, where the data is being displayed via the same format or symbols of the information associated with the parcel which was entered through the data entry, here the data format is being created by the user when the initial information is entered with a particular symbol format, also in Col. 10, lines 49-57 Kadaba discloses a "Site Configuration" where the user is allowed to alter the configuration of interfaces

associated with devices which at a station does include a data entry for providing a data collection format).

As per claim 16, Kadaba, et al discloses:

Receive information regarding the receipt...Col. 12, lines 7-16, Col. 13, lines 8-16, where the examiner is interpreting the data collection format of the present invention as the bar code information of Kadaba, et al);

Maintain a database of records related to the received items...(Col. 3, lines 51-52, Col. 10, line 58-Col. 11, line 3, Col. 11, lines 29-32);

And internal movement...(Col. 4, lines 6-10)

Generate a manifest of selected ones...(Col. 4, lines 16-17, [captured signatures]).

As per claim 20, Kadaba, et al discloses:

Wherein the data collection format includes a selection of entry items...(Col. 8, lines 8-11, w/ col. 7, lines 1-8, where the list is information derived from the PDA check in).

As per claims 21, 24, Kadaba, et al discloses:

Wherein the entry items further include a PO number of the recipient...(Col. 7, lines 7-8, [identity of the recipient]);

A package ID...(Col. 7, lines 5-7, [tracking identification number]);

And an internal delivery address...(Col. 7, lines 9-11, [list of stations/hubs]).

As per claim 22, Kadaba, et al discloses:

Recording information regarding the receipt.....(Col. 12, lines 7-16);

Record information regarding the internal movement...(Col. 13, lines 8-16, where the examiner is interpreting the data collection format of the present invention as the bar code information of Kadaba, et al);

Wherein the receipt information and the internal movement information are recorded with a data collection format which is upgradeable in order to allow the user to change...(Col. 12, lines 46-49, Col. 3, lines 25-32, where the data collection format outputted is the same format or symbols of the information associated with the parcel which was entered through the data entry, here the data format is being created by the user when the initial information is entered with a particular symbol format, also in Col. 10, lines 49-57 Kadaba discloses a "Site Configuration" where the user is allowed to alter the configuration of interfaces associated with devices which at a station does include a data entry for providing a data collection format).

As per claim 23, Kadaba, et al discloses:

The items include a barcode or a tracking number...(Col. 7, line 5-7, Col. 13, lines 12-16);

The data collection format includes a selection of entry items...(Col. 8, lines 5-18);

The selection of entry items is carried out by the user according to the user's needs...(Col. 12, lines 31-44).

Response to Arguments

5. Applicant's arguments filed 8/12/02 have been fully considered but they are not persuasive.

As per claim 1, the applicant argues that Kadaba does not teach or suggest the following: "wherein the receipt information and the internal movement information are recorded with a data collection format...the system is configurable so as to allow a user to use the base station to modify the data collection format according to the user's needs". However, in Col. 3, lines 25-32, Kadaba does teach that data is being displayed via the same format or symbols of the information associated with the parcel which was entered through the data entry, here the data format is being modified by the user when the parcel information is entered with a particular symbol format, this changes the original format used by the previous parcel, also in Col. 10, lines 49-57 Kadaba discloses a "Site Configuration" where the user is allowed to alter the configuration of interfaces associated with devices which at a station does include a data entry for providing a data collection format. Col. 12, lines 46-49 discloses that the processor is configured to respond to queries, however, the way in which this processor is configured is disclosed in Col. 3, lines 25-32 and Col. 10, lines 49-57 as described above.

As per claims 3-12, these claims depend either directly or indirectly from independent claim 1 and are therefore rejected for the same reasons set forth with respect to claim 1.

As per claim 13, the applicant argues that Kadaba fails to disclose the following "a data collection format which can be created and/or modified by a user according to the user's needs". However in Col. 3, lines 25-32, , Kadaba discloses that data is being displayed via the same format or symbols of the information associated with the parcel which was entered through the data entry. Here the data format is being modified by the user when the parcel information is entered with a particular symbol format which changes the original format used by the previous parcel, also Col. 10, lines 49-57 where Kadaba discloses a "Site Configuration" where the user is allowed to alter the configuration of interfaces associated with devices which at a station does include a data entry for providing a data collection format. The section in col.. 12, lines 7-16 and lines 46-49 show that the processor is configured to carry out certain procedures, however the way in which this processor is configured is disclosed in Col. 3, lines 25-32 and Col. 10, lines 49-57 as described above.

As per claims 14-21, these claims depend either directly or indirectly from independent claim 13 and are therefore rejected for the same reasons set forth with respect to claim 13.

As per claim 22, the applicant argues that Kadaba fails to disclose the following: "a data collection format which is upgradeable in order to allow the user to change the data format according to the user's needs". However, in Col. 3, lines 25-32, Kadaba discloses that the data collection format outputted, is the same format or symbols of the information associated with the parcel which was entered through the data entry, here the data format is being created/modified or upgraded by the user when the information

is entered with a particular symbol format. In this case, the data format used by the previous parcel would now be updated with the data format of the current parcel. Also in Col. 10, lines 49-57, Kadaba discloses a "Site Configuration" where the user is allowed to alter the configuration of interfaces associated with devices which at a station does include a data entry for providing a data collection format

As per claims 23-24, these claims depend either directly or indirectly from independent claim 22 and are therefore rejected for the same reasons set forth with respect to claim 22.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

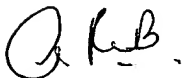

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
